Vanity is but the surface

To complement Multipanel's range of walls, floors and ceilings, we offer a selection of elegant vanities and shelving areas in matching finishes. Manufactured with attractive feature edge details, Multipanel vanities are the ultimate finishing touch to your new room.

Specifications:

- 2400 x 380 x 27mm
- Front; Bull-nosed, 12.5mm Radius, Short Ends; Unlipped, with loose laminate edge strips

KITCHEN HOB SPLASHBACKS

Stunning steel or subtle colour glass solutions

The entire range of Multipanel's wall panels can be used horizontally as kitchen splashbacks. To complement the fabulous warmth, depth and light that our splashbacks bring to your kitchen, we have selected a range of hob splashbacks. Our stainless steel and back-coloured glass are heat resistant and provide the necessary protection against naked flames and hot pans.

Stainless Steel

Combine with Multipanel Classic, Plus, Reflect, Tile, and Photo Wall splashbacks

Specifications:

Stainless Steel

- 760 x 700mm / 760 x 1000mm
- 1mm thick stainless steel wrapped around 6mm/12mm thick moisture resistant MDF

Combine with:

- 7mm thick stainless steel hob splashback with Multipanel Reflect and Tile range
- 13mm thick stainless steel hob splashback with Multipanel Classic, Plus range and Photo Wall

Our stainless steel range provides a stunning contrast to our panels with its contemporary feel. Multipanel's stainless steel hob splashbacks are great value, hard wearing and easy to clean.

Back-Coloured Glass

Combine with Multipanel Reflect and Tile splashbacks

Specifications:

Back-coloured Glass:

- 760 x 700mm / 760 x 1000mm
- 4mm thick toughened glass, back-painted to match Multipanel Reflect splashbacks

Combine with Multipanel Reflect and Tile splashbacks.

Multipanel's wide selection of back painted glass splashbacks for behind the hob are colour matched to our modern, high gloss Reflect range. Alternatively the back-coloured glass can be used as a contrasting colour to provide a feature behind the hob.

Glass splashbacks are extremely durable, easy to clean and quick to install.

HYDROLOCK

Innovative connection for a smooth and seamless look

Our clever Hydrolock connection makes it possible to join two panels together without a mid-joint. Precisely engineered by experts, Hydrolock edge details create a discreet and watertight joint for complete peace of mind. Recently improved to make even easier to install.

Hydrolock panels are supplied as standard with a tongued edge and a grooved edge for easy click-into-place installation. To ensure full, flush engagement of Hydrolock panels, ensure the walls or frames are completely flat and even where the panels will be fitted.

- Accuracy of pattern alignment between panels may vary depending on the scale of the pattern
- Full fitting instructions should be read prior to installation
- When manufacturing Hydrolock joints, 20mm is lost from the original panel width, e.g.
- 2400 x 598mm = 2400 x 578mm finished face size
- 2400 x 1200mm = 2400 x 1180mm finished face size

WALL PANEL PROFILES

Effectively simple installation

Our 100% waterproof panels are specially designed for easy installation and maintenance. The panels can be bonded directly to almost any surface using Multipanel High Grab Adhesive for flexibility and a clean look. Multipanel Walls and Ceilings are fitted together with aluminium or PVC profiles, and silicone sealed at all joints to ensure a watertight result. Full installation guidelines are supplied with the product and are available at www.multipanel.co.uk.

BATH & SHOWER TRAY SEAL KIT

The little touches

Multipanel Seal is an innovative and stylish two part shower tray and bath sealing system comprising a PVC strip and a high performance white silicone. The 'movement joint' expands and contracts to offer a sophisticated and reliable bottom seal for Multipanel Classic, Plus, Photo Wall and Economy ranges to ensure your design is finished beautifully.

PLEASE NOTE: all images and samples shown in this brochure are a representation of the actual finish from a small part of a panel. Colour, pattern and scale may vary on the finished product supplied. The amount of pattern on Multipanel Floors, (Click Tiles) varies between tiles to ensure the most realistic effect is created across the whole installation. Therefore, the printed samples may not represent the overall effect once the floor is laid.
